

Members of the EUCET Association

Members of the Association can be higher education institutions, professional associations, companies.

As for 1st November 2011 the Association comprised 55 members from 27 countries:

AT	Graz University of Technology
BE	K.U. Leuven
BG	University of Architecture Civil Engineering and Geodesie
CY	Cyprus Association of Civil Engineers
CZ	Czech Technical University in Prague
CZ	Brno University of Technology
CZ	University of Pardubice
DE	Fachhochschule Oldenburg/Wihelmshaven
DE	Technische Universitaet München
DK	Aalborg University
EE	Tallinn University of Technology
ES	ETSICCP de Santander Cantabria
ES	Universidad Politécnica de Madrid
ES	Universitat Politècnica de Catalunya Barcelona
ES	Colegio de Ingenieros de Caminos, Canales y Puertos, Madrid
ES	Universitat Politècnica de Valencia
ES	Universidade da Coruna
FI	Aalto University of Technology
FR	École des Ponts ParisTech
FR	ESTP Paris
FR	INSA LYON
GR	National Technical University of Athens
GR	University of Patras
GR	Aristotle University of Thessaloniki
GR	Technological Educational Institute of Serres
HU	Budapest University of Technology and Economics
HU	University of Pécs
IE	University College Dublin
IE	Engineers Ireland
IT	Polytechnic of Milano
IT	University of Pisa
IT	University of Trento
IT	Universita di Roma Tor Vergata
LT	Vilnius Gediminas Technical University
LV	Riga Technical University
NL	Delft University of Technology
NO	Norwegian University of Science and Technology
PL	Silesian Technical University in Gliwice
PL	Warsaw University of Technology
PT	University of Porto
RO	Politehnica University of Timisoara
RO	Technical University „Gheorghe Asachi” Iași
RO	Technical University of Civil Engineering Bucharest
RO	Technical University of Cluj-Napoca
RO	University Ovidius Constantza
RO	Foundation for Materials Science and Engineering “Șerban Solacolu”
RU	Tomsk State University of Architecture and Building
RU	North Caucasus State Technical University, Stavropol
SI	University of Maribor
SI	University of Ljubljana
SK	University of Žilina
TR	Istanbul University
UK	City University
UK	European Council of Civil Engineers
UK	Imperial College London

How to join the EUCET Association

Application forms are available
on the EUCET Association
website: www.euceet.eu

EUCET ASSOCIATION

For further information please contact

EUCET Association President
Professor Jean BERLAMONT
Katholieke Universiteit Leuven
Department of Civil Engineering
Kasteelpark Arenberg, 40
B-3001 Heverlee, Leuven, Belgium
e-mail: jean.berlamont@bwk.kuleuven.ac.be

or

EUCET Association General Secretary
Professor Iacint MANOLIU
Technical University of Civil Engineering
Bul. Lacul Tei 124, Bucharest 020396, Romania

What is the EUCEET Association?

The EUCEET Association is an independent grouping of University Departments, Professional Associations and Research Institutes which share a common interest in Civil Engineering Education and Training. It was founded in 2007, and arose from a Thematic Network, EUCEET, which had operated for a number of years under the auspices of the European Commission – Directorate General for Education and Culture.

The Association has more than 50 members, including most of the leading European Universities and Institutions. Its management and organisation is conducted on behalf of the members by an Administrative Council, whose current membership is given below.

- Prof. Jean Berlamont (Catholic University Leuven) President
- Prof. Benjamin Suarez (Universitat Politecnica de Catalunya, Barcelona) Vice-President
- Prof. Marie-Ange Cammarota (École des Ponts ParisTech)
- Prof. Roger Frank (École des Ponts ParisTech)
- Colin Kerr (Imperial College London)
- Assist. Prof. Marina Pantazidou (National Technical University of Athens)
- Prof. Pericles Latinopoulos (Aristotle University of Thessaloniki).

The Secretariat of the Association is based in the Technical University of Civil Engineering, Bucharest and the General Secretary is Professor Iacint Manoliu.

Our Objectives

The Association promotes education and training in Civil Engineering by:

- Promoting cooperation between higher education institutions
- Fostering good practice and innovation in education and training;
- Contributing to the establishment of educational criteria, based on learning outcomes and competences;
- Providing advice and assessment for those developing new educational programmes
- Establishing strong links with the European Construction Industry
- Taking account of industrial needs when designing study programmes
- Promoting and encouraging student mobility
- Cooperating with Professional Bodies and other Associations on matters of common interest
- Promoting continuing education and supporting the professional development of Civil Engineers;
- Fostering research cooperation and collaboration between members;
- Developing links with like-minded organisations within and beyond Europe

What do we do?

The Association is a forum for debating the key issues in Civil Engineering Education. We maintain a number of Working Groups to address key topics, and inform the Sector (members and others) via conferences, symposia and publications.

Conferences are held annually and our main publication series, 'Inquiries into European Higher Education in Civil Engineering' is now into its ninth volume. Recent studies have included:

- Comparative studies of degree programmes and curricula across Europe
- Innovation in teaching and learning including e-learning and project-based learning
- Accreditation and assessment
- Synergies between Industry and Academe
- What can Higher Education do for the Construction Industry?
- Reviewing the introduction of the Bologna Process
- Assessing requirements for developing CDP programmes for professional engineers
